

SP MINERALS

2025 COLLECTION

WWW.SPMINES.COM

WHO WE ARE

At SP Minerals, we specialize in the global trading and supply of premium-quality natural stones and industrial minerals. We are committed to sourcing the finest marble, granite, onyx, travertine, barite, iron ore, and other mineral products from trusted and reliable mining companies worldwide. We prioritize quality assurance, ethical sourcing, and seamless logistics to ensure that our clients receive the best materials on time and at competitive prices. Whether you require luxurious marble, granite, travertine or onyx for architectural projects or high-grade barite and iron ore for industrial applications, we are your trusted partner in the international mineral trade.

OUR MISSION

To source and supply the highest quality natural stones and minerals from trusted global suppliers, ensuring reliability, sustainability, and exceptional service for our clients.

OUR VISION

To be a globally recognized leader in the trading of premium-quality stones and minerals. Known for trust, integrity, and excellence, across globe, in sourcing the finest of materials.

OUR SERVICES

Sourcing & Procurement

We work with a network of trusted mining companies and suppliers to procure and deliver top-quality natural stones and minerals to clients worldwide.

Our sourcing strategy ensures:

- ✓ Reliable supply chains with consistent quality.
- ✓ Competitive pricing through direct supplier relationships.
- ✓ Compliance with international industry standards.

Global Trade & Logistics

We handle the global trade and export of minerals and stones, ensuring timely and efficient delivery through a well managed supply chain.

Our export services include:

- ✓ Bulk supply & shipment coordination for international buyers.
- ✓ Custom packaging & handling for safe transport.
- ✓ Import/export documentation assistance for seamless trade operations.

Quality Assurance & Verified Sourcing

Our commitment to excellence is built on a foundation of robust quality control and trusted supplier partnerships.

To ensure the highest standards, we:

- ✓ Work only with verified, trusted mining companies.
- ✓ Conduct quality checks and compliance verifications.
- ✓ Ensure materials meet the required industry standards.

MARBLES COLLECTION

Blocks: Available in custom dimensions.

Slabs: Minimum 4ft x 6ft and up to 6ft x 10ft.

Cut to Size: Custom tile sizes available upon request.

Thickness: 2cm or 3cm

Finish: Polished or Matt

An aerial photograph of a large-scale mining operation. The scene is dominated by a wide, dirt road that winds through a landscape of excavated earth and rock. Several large yellow haul trucks are visible, some carrying loads of material. The background shows a vast, flat landscape under a hazy sky, with some distant structures and a body of water. The overall tone is industrial and expansive.

MINERALS COLLECTION

BARITE

Key Uses:

- ✓ Oil & Gas Drilling – Used as a weighting agent in drilling mud to prevent blowouts.
- ✓ Paints & Coatings – Enhances brightness and durability
- ✓ Plastics & Rubber – Improves strength and resistance.
- ✓ Medical Applications – Used in X-ray imaging as a contrast agent.
- ✓ Glass & Ceramics – Enhances strength and clarity.

Barite is a high-density mineral primarily composed of barium sulfate (BaSO_4). Known for its weight, chemical stability, and non-toxicity, it is widely used across various industries.

COPPER ORE

Key Uses:

- ✓ Electrical Wiring & Electronics – Essential for power transmission, wiring, and circuit boards.
- ✓ Construction & Plumbing – Used in pipes, roofing, and structural materials.
- ✓ Automotive & Transportation – Found in batteries, motors, and cooling systems.
- ✓ Industrial Machinery – Critical for manufacturing equipment and heat exchangers.
- ✓ Coins & Alloys – Used in currency and alloys like brass and bronze.

Copper is a highly conductive, durable, and corrosion-resistant metal widely used across industries for its excellent electrical and thermal properties.

IRON ORE

Key Uses:

- ✓ Steel Production – The primary ingredient in making steel for construction, automobiles, and machinery.
- ✓ Infrastructure Development – Used in bridges, buildings, and transportation networks.
- ✓ Manufacturing & Heavy Industry – Essential for producing tools, equipment, and industrial machinery.
- ✓ Powdered Iron – Used in magnets, auto parts, and electrical components.

Iron Ore is a key raw material used in the production of iron and steel, essential for global infrastructure and industrial development. It is rich in iron oxides and is processed into various forms to meet industry needs.

HIMALAYAN PINK SALT

Key Uses:

- ✓ Culinary Use – A natural alternative to table salt, enhancing flavor and nutrition.
- ✓ Spa & Wellness – Used in bath salts, scrubs, and salt therapy for relaxation.
- ✓ Decor & Salt Lamps – Carved into lamps and tiles for air purification and ambiance.
- ✓ Animal Nutrition – Added to livestock feed for essential minerals.

Himalayan Pink Salt is a naturally mineral-rich salt, known for its distinct pink color, purity, and health benefits. Mined from ancient salt deposits, it is valued for both culinary and wellness applications
